

Corporate Sponsor Invests in Community Safety through Adopting Strawberry Peak Lookout!

San Bernardino National Forest, CA (February, 2008)—A local office of BAE Systems, a global defense and aerospace company, has sponsored Strawberry Peak Fire Lookout through the Adopt-A-Lookout program sponsored by the San Bernardino National Forest Association (SBNFA). The sponsorship supports the Fire Lookout Host program managed by the SBNFA, helping to keep seven historic towers across the San Bernardino National Forest staffed and in good repair to continue to spot fires and educate visitors to the Forest.
